

Siemens Pakistan plays an integral part in the development and progress of the national economy with a strong sense of responsibility to society and the environment. As a Corporate Citizen and conscious of our Social and Environmental responsibilities, we function in a manner that protects and preserves the environment for our future generations, ensures the health and safety of our stakeholders and exerts a positive influence in the community.

We regard environmental and social aspects cardinal to sustainable economic development. We believe in the efficient use of natural resources and reduction and prevention of pollution. We also assess health, safety and environmental aspects and impacts in the early stages of product and process development.

With these commitments, we at Siemens Pakistan:

- Place our continuous and concerted efforts towards minimizing the impacts on the environment and use of energy and natural resources.
- Control, monitor and minimize the generation of waste, emission to air, water and land; and are committed to comply with all the applicable legal requirements.
- Ensure adequate controls to prevent any adverse effect on the environment and to reduce or eliminate health and safety hazards.
- Practice efficient energy management with resource conservation and promote recycling, reuse, reduction and replacement wherever possible.
- Promote awareness, responsibility and commitment for the conservation of the global environment as well as health, safety and protection amongst all levels of employees.
- Educate the employees on the issues of health, safety and environment.
- Work in a spirit of cooperation with the relevant authorities.

We ensure full commitment to these at all levels of management and conduct regular assessments and reviews to ensure the continuance of improved health, safety and environmental conditions and to confirm the effectiveness of the Company's policy, objectives, targets and programs in this regard.
